Tying Families Together

Take Care of Your Family

CaringTies helps you care for your family by keeping your information organized and accessible

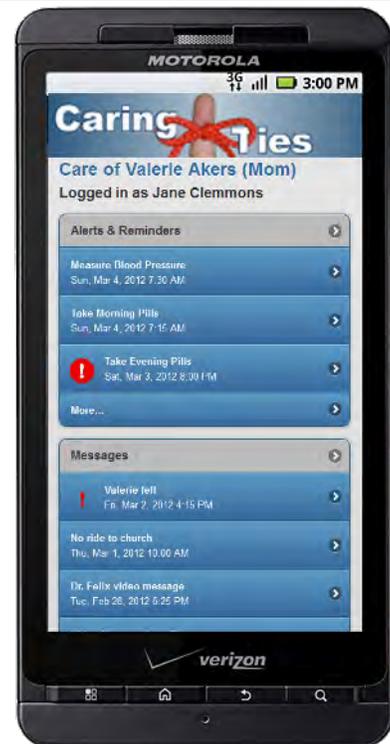

Keep information Organized

For each person you care for, you can:

- **Schedule Activities** to track and manage everything that needs to be done and when
- Get **Reminders** by text or email, so you don't forget anything
- Track completion of activities and **record and report results** (like weight or blood sugar)
- Store **Notes**, like lists of medications, medical history, or professional contacts
- **Journal** to save experiences or status updates

Keep Information Accessible

- Access your information from **anywhere** you can get to the Internet
- Use your **smartphone, tablet or PC**
- Switch from one device to another at your convenience
- All your information is **stored securely**, all in one place

Get Your Family Involved

Create a Family Care Network that ties your whole family together to share information, communicate, and coordinate care activities

- Real-time access for **all family members** to each other's information
- Set **permissions** to control who has access to what information
- Post **messages and comments** to add information and discuss important topics
- Provide **mutual accountability and support**

Get Started – It's Free!

CaringTies is Free! NOT just a free trial.
