

RENSSELAER COUNTY FLEET MAP VERSION 7.0 07-01-2017

RENSSELAER COUNTY PUBLIC SAFETY

MOTOROLA P25 800 MHZ SYSTEM

FLEET MAP

Version 7.0 07-01-2017

FLEET MAP VERSION # 7.0 7/01/17

The fleet map is designed with a framework to function within 3 Primary Zones of 16 channels each and 3 Zones are provided for Interoperability Purposes

Zone 1 PRIMARY OPERATIONS

Zone 1 will be utilized for Normal Day-to-Day Operations. Fire Dispatch will be used by all Fire Battalions. Operations talk groups are identified by Fire Battalions and the Town of East Greenbush. EMS Dispatch will be used by all EMS agencies. ALERT will be programmed as a **receive only** talk group and be assigned to position # 17, therefore not on the selector switch, but in the scan list.

Zone 2 OVERFLOW OPERATIONS

Zone 2 will be utilized if radio traffic/incident conditions warrant and may be assigned at the request of the Incident Commander or the discretion of the Communications Center Supervisory/Management Staff.

Zone 3 SPECIAL OPERATIONS and TRAINING

Zone 3 will be utilized if radio traffic/incident conditions warrant and may be assigned at the request of the Incident Commander or the discretion of the Communications Center Supervisory/Management Staff. Zone 3 DISPATCH 2 may be established with a dedicated dispatcher should conditions warrant at the discretion of Bureau Management. Zone 3 WILL be used for training when no Special Operations are assigned to the Zone.

Zone 4 800 INTEROPERABILITY

Zone 4 is used for 800 MHz Interoperability Channels, direct and repeated. Zone 4 talk groups consist of Federal Interoperability channels that are required to be operational in all P25 systems. CALL Talk groups (CALL 90, CALL 90D) are established as a communications path to the local 911 Center. TAC talk groups are established for on-scene incident use. The "D" designator indicates non-repeated. Rensselaer County monitors 8 CALL 90 and 7 CALL 90 D channels from multiple sites. 8 Call Channels are not repeated. Rensselaer County does not have repeaters assigned to any of the 8 TAC channels. Also included in this Zone 4 is Connectivity for Landing Zone communications for Medi-Vac Helicopters.

Zone 5 INTERCOUNTY

Zone 5 is reserved for future INTERCOUNTY 800 System interoperability. Albany, Rensselaer and Saratoga Counties all utilize Motorola Astro 800 Systems, which will enable the 3 systems to be connected. At this time, INTERCOUNTY interoperability is not operational.

Zone 6 700 INTEROPERABILITY

Zone 6 is used for 700 MHz Interoperability Channels. Rensselaer County monitors 7 CALL 50 from a single site and it is not repeated. The NYS OIEC Plan assigns 7 TAC channels to each county. Rensselaer County does not repeat any of the & TAC channels. Albany, Columbia, Greene, Rensselaer, Saratoga and Washington County 7TAC channels are included in this zone.

RENSELAER COUNTY FLEET MAP VERSION 7.0 07-01-2017

There are 6 primary templates as follows: FIRE, EMS, STAFF (3), LAW, East Greenbush and Rensselaer. The East Greenbush and Rensselaer templates are created to address their needs as separate full time dispatch centers. Additional templates are established for specific Bureau of Public Safety staff and Government/Highway for those specific operational needs. The FIRE template is slightly modified for each Battalion and the Town of East Greenbush to place the primary TAC Channel in position # 2 on the select switch to permit easy access. The EMS template also places the EMS TAC Channel (TAC 10, TAC 20, TAC 30) in position # 2 on the select switch for easy access.

LAW is designed for the generic Motorola APX radio and will be adapted for the Harris Unity Multi-Band radios. Unity radios will continue to maintain programming for all legacy systems. LAW will include a Central Dispatch talk group for 911 communications and additional dispatch talk groups for local PD dispatch centers, OPS talk groups for each agency and several interoperability talk groups. Also include in LAW will be a COUNTY BROADCAST Talk Group that will be assigned to Position 17, Receive Only for the purpose of Countywide Law Enforcement broadcasts. Encryption will be assigned to a talk group, not accessible by the console, and to a Ground channel. Law enforcement profiles may vary depending on individual agency needs. The LAW template is under review by the Law Enforcement Users Group and is provided at this time for reference purposes only.

COUNTYWIDE is a RCECC monitored talkgroup that is in all radios and provides full interoperability. It is also used for legacy KBS Sentralok decoding.

Other talk groups may be designated.

| ALERT - | Paging Simulcast – Receive only, in scan list |

Rensselaer County does not have a repeated interoperability system.

ZONE 6 INTEROPERABILITY IS IDENTICAL FOR ALL PROFILES

EAST GREENBUSH TOWN PROFILE

The East Greenbush Town template is assigned to Best-Luther FD, Clinton Heights FD, East Greenbush FD and WF Bruen Rescue. EGB Dispatch will be in Position 1, ZONE 1 TO ZONE 3. Fire Dispatch will replace Countywide in Zone 1 and Zone 2. This maintains a dispatcher at each end of the selector switch and simplifies EGB units switching to County Dispatch when responding mutual aid. The East Greenbush Operations Talk Paths are Tac 6, Tac 26 and Tac 36, all of which are in Position # 2 on the selector switch in each zone.

RENSELAER CITY PROFILE

The Rensselaer City template is assigned to Rensselaer City Fire. RENSELAER CITY Dispatch will be in Position 1, ZONE 1 TO ZONE 3. Fire Dispatch will replace Countywide in Zone 1 and Zone 2. This maintains a dispatcher at each end of the selector switch and simplifies Rensselaer units switching to County Dispatch when responding mutual aid. The Rensselaer Operations Talk Paths are Tac 7, Tac 27 and Tac 37, all of which are in Position # 2 on the selector switch in each zone.

RENSELAER COUNTY FLEET MAP VERSION 7.0 07-01-2017

BPS STAFF TEMPLATES

STAFF 1- Fire, EMS and Emergency Management Staff, Identified County Agency Staff

STAFF 2 – Cause and Origin Team

STAFF 3 – Bureau Management

LAW ENFORCEMENT

Law Enforcement agencies presently use Harris Unity Multi-Band radios which will have the Motorola 800 Fleet added. The LAW template is under development by the Law Enforcement Users Group and will be finalized at a later date.

GOVERNMENT

County Government agencies other than Emergency Services

County Highway may be a separate profile.

Identified County Staff may have Emergency Management Talk Group

BPS FACILITIES EMERGENCY MANAGEMENT

These talk groups are dedicated for special emergency management purposes are restricted from general field use. This talk groups will be for primary communications between the RCECC and various facilities, such as hospitals, schools and similar applications.

INTEROPERABILITY (ZONE 4)

Zone 4 will be in all emergency services radios and identified other radios. This zone includes the 800 MHz National Interoperability Channels that may exist in other 911 Centers. Rensselaer County has 90 CALL D operational at multiple sites. TAC Channels are for on scene incident operations and may not be monitored by a 911 Center. The "D" designator indicates non-repeated. These channels are reserved for situations when out of county units are operating in Rensselaer County, or when Rensselaer County units are operating in another county. This Zone will be in all radios.

INTERCOUNTY (ZONE 5)

This zone is earmark for future development of connectivity between Albany, Rensselaer and Saratoga Counties. There are various technologies available to accomplish this. At this time none of the channels in this zone are operational.

700 INTEROPERABILITY (ZONE 6)

Zone 6 includes the 700 MHz National Interoperability Channels that may exist in other 911 Centers. Rensselaer County has 7 CALL 50 operational at a single site. TAC Channels are for on scene incident operations and are not be monitored by the RCECC. These channels are reserved for situations when out of county units are operating in Rensselaer County, or when Rensselaer County units are operating in another county. This Zone will be in all radios.
