What is Children with Special Health Care Needs?

These are children birth to 21 years of age who have or are suspected of having a serious or chronic physical, developmental, behavioral or emotional condition. Also, under this are children who require special health or related services beyond that is required by children generally.

The Children and Youth with Special Health Care Needs Program seeks to improve the system of care for children and youth with special health care needs.

What can a Child Services Specialist do for you?

One can assist families with providing support and resources to access services to improve the quality of life for their Children with Special Health Care Needs and their families.

Community Outreach?

To get the word out about our program and to provide resource services to families.
